

badux 12x12x12 — 23mm pitch — 1:1 — sheet row 1/2, col 1/4

print at 100%, no scaling — this bar must measure exactly 100mm

trim on the dashed edges, then lap each sheet over the one above and to its left, matching grid lines through the 10mm overlap

badux 12x12x12 — 23mm pitch — 1:1 — sheet row 1/2, col 2/4

print at 100%, no scaling — this bar must measure exactly 100mm

trim on the dashed edges, then lap each sheet over the one above and to its left, matching grid lines through the 10mm overlap

badux 12x12x12 — 23mm pitch — 1:1 — sheet row 1/2, col 3/4

print at 100%, no scaling — this bar must measure exactly 100mm

trim on the dashed edges, then lap each sheet over the one above and to its left, matching grid lines through the 10mm overlap

badux 12x12x12 — 23mm pitch — 1:1 — sheet row 1/2, col 4/4

print at 100%, no scaling — this bar must measure exactly 100mm

trim on the dashed edges, then lap each sheet over the one above and to its left, matching grid lines through the 10mm overlap

badux 12x12x12 — 23mm pitch — 1:1 — sheet row 2/2, col 2/4

print at 100%, no scaling — this bar must measure exactly 100mm

trim on the dashed edges, then lap each sheet over the one above and to its left, matching grid lines through the 10mm overlap

badux 12x12x12 — 23mm pitch — 1:1 — sheet row 2/2, col 4/4
